

POCRUS Scenario-Based Rheumatology Ultrasound Workshop

A probability-based ultrasound approach, supervised hands-on scanning and illustrative cases discussion with faculty

Registration opens at 08:00 AM

09:15 – 18:45

Friday, 20 October 2023

InterContinental Dubai Festival City

Target Audience

This event is designed to engage rheumatology consultants, and senior specialty professionals, responsible for managing dynamic rheumatology services, providing them with practical insights to make swift, effective decisions for their patients.

Learning Objectives

- Understand common presentation scenarios in Rheumatology
- Apply a probability-based approach to evaluate individual presentations
- Understand the role of point of consultation ultrasound in the probability-based algorithm
- Recognise specific and sensitive ultrasound signs/patterns
- Confirm/exclude different scenarios by applying ultrasound findings
- Understand the individual settings and procedures for ultrasound scanning

Convenor

Bhaskar Dasgupta
Professor of Rheumatology
Head of Rheumatology & Director of Research
Southend University Hospital
United Kingdom

Affiliate Investigator

Wafae Rachidi
Specialist Rheumatologist
Dubai Hospital
United Arab Emirates

Faisal ElBadawi
Senior Specialist Rheumatologist
Dubai Hospital
United Arab Emirates

Ahmed Negm
Consultant Rheumatologist
Dubai Hospital - DHA
Associate Professor
Dubai Medical College (DMCG)
United Arab Emirates

Live Demonstrations and Supervised Hands-On Workshops

- Principles for applying ultrasound in rheumatology scenarios
- Standardised sonographic scanning in clinical scenarios for:
 - ✓ Rheumatoid Arthritis
 - ✓ Spondyloarthritis /Psoriatic arthritis
 - ✓ Gout/ CPPD Crystal Arthritis
 - ✓ PMR/GCA/LVV
- The use of colour Doppler ultrasonography and ultrasound system settings.
- Identification of vascular sonoanatomy.

Attendance limited to 25 delegates

SCIENTIFIC PROGRAM

Innovation Workshop

POCRUS Scenario-Based Rheumatology Ultrasound Workshop

Convenor

Professor Bhaskar Dasgupta

Affiliate Investigators

Dr. Wafae Rachidi, Dr. Faisal ElBadawi and Dr. Ahmed Negm

The Scenario-based approach	
08:00 - 14:30	Registration
09:15 - 10:00	POCRUS: Integrating Ultrasound into Probability-Based Rheumatology Algorithms
10:00 - 10:45	Live Demonstration and Practice
10:45 - 11:00	ADARRC™ Networking & Refreshment Break
11:00 - 11:30	Live Demo
11:30 - 12:30	Practical Workshop
12:30 - 14:30	Prayer & Lunch
Rheumatoid Arthritis/PMRGCA LVV	
14:30 - 15:00	Rheumatoid Cases Across the Spectrum: How Can Ultrasound Help?
15:00 - 15:30	GPSD: PMR GCA LVV: How Can Scanning Help?
15:30 - 15:45	ADARRC™ Networking & Refreshment Break
15:45 - 16:15	Scanning Techniques and Protocols Live Demonstration at Workstations - Ultrasound Scanning in Rheumatoid/GCA PMR LVV
16:15 - 18:15	Practical Workshop
18:15 - 18:45	Q&A, Discussion, and Wrap up
END OF THE DAY
